

# IKECHUKWU OKEY

## FRONT-END DEVELOPER | PRODUCT DESIGNER

[okey\\_ikechukwu@yahoo.com](mailto:okey_ikechukwu@yahoo.com) | +2349037627341 | <https://iookey.netlify.app>

### ABOUT ME

I am a passionate UI/UX designer with an eye for clean, attractive and mind-blowing user interfaces. I'm also, a lover of a JavaScript Framework called Nuxt JS and SvelteKit. Proficient in the use of a collaborative prototyping tool called Figma and also in the use of a vector drawing application called Adobe Illustrator. I strive for quality and apply process and discipline towards optimizing performance.

Communication  
Collaboration  
Problem-Solving

### WORK EXPERIENCE

MARCH 2025 – APRIL 2025

#### Brand Designer & Front-End Developer | Pateao Analytics

Created the colour scheme and designed the logo for the company. Developed the landing page with a static website framework called Astro JS and integrated a CMS called Tina CMS to the site for easy content management.

MAY 2024 – NOVEMBER 2024

#### Product Designer & Front-End Developer | Sn Software

I was responsible for designing the mobile application and administrative dashboard for an e-Bus application. I developed the administrative dashboard using Angular.

JUNE 2023 – AUGUST 2024

#### Front-End Developer | Marketpurse

Developed an administrative dashboard to monitor activities carried out on the mobile fintech application.

#### OCTOBER 2022 – MARCH 2023

Front-End Developer | Finbers Business

Developed an electronic profile resume mobile application using PWA, Svelte and Routify.

#### DECEMBER 2021 – OCTOBER 2022

Product Designer | Soft Alliance and Resources Ltd

I design the UI and UX of both mobile and web applications. In addition to this, I develop prototypes using collaborative prototyping tool called Figma. I made use of Adobe Illustrator CC for vector graphics when designing logos.

#### MAY 2021 – JULY 2021

Product Designer Consultant | LULA

I created six different prototypes for six different landing pages aimed at different users such as drivers, businesses, students and traditional commuters.

#### SEPTEMBER 2019 – OCTOBER 2020

UI/UX Designer and Front-End Developer | Advansio Interactive

I designed the UI and UX of both mobile and web applications. In addition to this, I develop prototypes using collaborative prototyping tool called Figma. I made use of Vue JS for front-end development and Adobe Illustrator CC for vector graphics.

### PROJECTS

Pateao Analytics Landing Page ([Live](#))

Created the colour scheme and designed the logo for the company. Developed the landing page with a static website framework called Astro JS and integrated a CMS called Tina CMS to the site for easy content management.

Kofa Sports Website (WordPress) ([Live](#))

I developed a custom WordPress theme for a sports company website based in China.
